COR-0234
Copy 2 of 5

16 December 1958

MEMORANDUM FOR : Cover Officer, DPS/DCI
SUBJECT : Project CORONA
(Related Publicity)

Attached is a clipping from the 15 December edition of The Evening Star. In the event of an emergency, detection and photographing other satellites might explain our CORONA payload and also our operational techniques. As stated in Newsweek, if we can prove the Russians are doing it, the policy questions become somewhat academic.
